Discover Yield Manager & scale up 10x your team's workflows efficiency

Easily integrates with single-page applications and offers support for various layouts

Redefining Power in Header Bidding Wrapper

Unlock the full potential of your ad stack with a supercharged codebase. It's finely tuned to seamlessly integrate with Prebid, Amazon, GAM, Content Rec, Video, and more. Get exclusive perks like custom ad unit management for sprawling pages and smart refresh features that play by IAB rules.

Let's Talk!

Scale Performance of your Programmatic Team

Empower your Programmatic team with absolute control to test, change and add: New bidders, ad units, pixels, events, video players, and ad unit behaviors. And also to deploy directly to the webpage. Image new ways to monetize and track elements on the page and be at the top of your game.

Book a Demo

New vendor's integration within one day

Empower developer teams with the ability to integrate new vendors within one day. Customize variables for faster performance, optimize ad units based on page depth and JavaScript triggers, and seamlessly transfer custom logic from existing ad stacks. Save countless hours and unleash the full potential of product.

Let's Talk!

A/B/n Testing

Empower programmatic teams with autonomy for multivariate tests, saving developer hours. Test everything and 10x faster! Experiment different SSP partners, resellers, ad format, ad placement, countries, layouts and more.

Let's Talk!

Enhanced ad stack control & scalability

Effortlessly manage and synchronize ad stacks across multiple domains from a centralized location. Customize individual ad stacks using variables and programmable logic, while efficiently updating shared elements. Simple setup with just one JavaScript on the page, even without ad-specific divs. Take full control of your ad stack setup now!
